Portfolio: [Portfolio](#) | [Trần Ngọc Ánh Dương](#)

CAREER OBJECTIVE

Frontend Developer with a solid foundation in HTML, CSS, JavaScript, and React.js, along with hands-on experience building responsive interfaces and integrating RESTful APIs during an internship at FamilyMart and a multi-role admin system project (Admin/Manager/Employee). Currently expanding knowledge of TypeScript, Next.js, and Material-UI to meet job requirements immediately, while looking to take on business systems with complex logic such as ERP/CRM.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), HTML5, CSS3, React.js, Next.js, TypeScript
UI Libraries & Styling: Material-UI (MUI), Responsive Web Design, various CSS frameworks
Databases: SQL Server, MongoDB
Development Tools: Git, GitHub, GitLab, Postman, Figma, VS Code, Android Studio, SSMS

WORK EXPERIENCE

Frontend Development Intern 05/2026 – 07/2026
FamilyMart Co., Ltd.

- Designed and built responsive, cross-browser UI components using React.js, HTML5, and CSS3.
- Integrated RESTful APIs with the backend team to display real-time dynamic data for internal ERP/CRM modules.
- Worked in an Agile model, using GitLab/GitHub for version control, code review, and feature deployment.
- Ensured design consistency and improved code reusability across the application's layout.

PROJECTS

❖ **Facial Recognition Attendance System** Team project, 2 members
Technologies: React.js, Node.js, SQL Server, face-api.js, RESTful API

- Developed role-based access control (RBAC) dashboards for Admin, Manager, and Employee roles to streamline management workflows.
- Built core authentication features including login, registration, email verification, and password reset via RESTful API.
- Integrated face-api.js for real-time facial recognition to enable accurate attendance tracking.
- Designed UI/UX wireframes in Figma, ensuring consistent typography, layout, and high visual quality.

❖ **Online Flower E-Commerce Website** Team project, 2 members
Technologies: HTML, CSS, JavaScript, SQL Server, Node.js

- Designed and developed the user interface for an online flower shop, including home page, product listing, product detail, cart, and QR-integrated checkout pages.
- Built a responsive interface using HTML, CSS, and JavaScript, ensuring accurate display across multiple devices.
- Integrated and displayed product data from the backend API on the user interface.
- Developed interactive features such as product search, category filtering, and add-to-cart functionality.
