OF TECHNOLOGY (HUTECH)

INFORMATION
TECHNOLOGY ENGINEER

09/2022 — Present

Current GPA 3.15/4.0

Expected Graduation: 10/2026

TECHNICAL SKILLS

- Programming & Frameworks:
HTML, CSS, JavaScript,
ReactJS
- Database: SQL Server
- Tools: GitHub, Figma, VS
Code, Visual Studio, Android
Studio, Postman, SQL
Management Studio

SOFT SKILLS

- Teamwork & Collaboration
- Problem-Solving & Critical
- Thinking Communication
Skills
- Time Management &
Responsibility SelfLearning
- Presentation & Fast-Learning
- Design Thinking
- Creativity & Ideation
- Able to use Figma

LANGUAGES

- English

PROFILE

I am a final-year student majoring in Information Technology with a strong passion for web interface development and user experience design. I have knowledge of HTML, CSS, JavaScript, and some basic experience with React, along with an understanding of frontend development principles. I am seeking an opportunity for a Frontend Developer Intern position to apply my knowledge in a real-world environment, improve my interface development skills, and gain practical experience in building user-friendly and interactive web applications.

WORK EXPERIENCE

Frontend Developer Intern

CÔNG TY CỔ PHẦN FAMILYMART | 05/2025 – Present

- Developed responsive user interfaces using HTML, CSS, JavaScript, and React.js, ensuring compatibility across multiple devices and screen sizes.
- Built webpage layouts and reusable UI components based on design requirements to maintain interface consistency.
- Worked with RESTful APIs to retrieve, display, and manage dynamic data on the frontend.
- Collaborated with backend developers and team members using GitHub and GitLab for source code management and project collaboration.

PROJECTS

Face Recognition Attendance System

Project Size: 2

Tech Stack: SQL Server, Node.js, face-api.js

- Developed and implemented responsive user interfaces for core features such as login, account registration, email verification, and password reset by integrating with backend APIs.
- Designed and refined wireframes while maintaining consistency in color palette, typography, layout, and overall visual hierarchy.
- Built the main user interface of the system including the dashboard, account management pages, and other key modules using modern frontend technologies.
- Implemented and optimized UI features for different user roles such as Admin, Manager, and Employee to ensure usability and smooth user experience.
